

NATIVE BEES OF GEORGIA

Join us at UGA Marine Extension and Georgia Sea Grant's Brunswick Station for the Native Bees of Georgia workshop. The workshop will be hosted by EcoScapes program manager Keren Giovengo. She will be joined by guest speaker Dr. Nancy Lee Adamson, who is the Pollinator Conservation Specialist for the Xerces Society for Invertebrate Conservation. Dr. Adamson's presentation, "Common Bees of Georgia," will provide valuable information about the importance of pollinators, native bee diversity, common bees of Georgia, and planting for pollinators. Following the presentation, participants will tour the EcoScapes native plant demonstration garden where they will identify bees and the native plants that they depend upon.

THURSDAY, OCTOBER 13, 2016

11:30 a.m. – 1:30 p.m.
Please bring your own lunch

LOCATION

University of Georgia
Marine Extension
715 Bay Street
Brunswick, Georgia
