For more great activities and information on what you can do to prevent marine debris, visit

www.marinedebris.noaa.gov

This activity booklet was produced by the University of Georgia Marine Extension Service and Georgia Sea Grant with funding from the Southeast Atlantic Marine Debris Initiative. Some of the activities were developed by the National Oceanic and Atmospheric Administration (NOAA)

Marine Debris Program under NOAA contract number AB133F06CN0193 by

Sheavly Consultants, Virginia Beach, Virginia.

# **Marine Debris Word Search**

Marine debris is human-made trash that ends up in rivers, streams and oceans. Marine debris is dangerous to wildlife and the environment because animals can mistake it for food or become tangled in it. Marine debris affects people too, whether we are boating, fishing, swimming or simply enjoying a day at the beach.

## **Words to Find:**

Hint: wind and ocean currents move trash in all directions, so look for words everywhere—even backwards!

HABITAT
MARINE DEBRIS
REDUCE
STORM DRAIN
WATERSHED
REUSE

POLLUTION
BIODEGRADE
CONSERVATION
GYRE
PLASTIC
RECYCLE

## **Word Search Vocabulary**

Biodegrade – to break down into natural elements by some biological process

**Conservation** – to preserve or protect natural resources

Gyre – a large area of rotating ocean currents

Habitat – the natural home of an animal, plant, etc.

Marine Debris – human-made trash that ends up in rivers, streams and oceans

Plastic – various types of non-metallic material made by a synthetic process called polymerization

Pollution – the introduction of contaminants into a natural environment

Recycle – to process used materials into new, useful products

Reduce – to lessen in any way

Reuse – to use an item again in the same way or for a different purpose

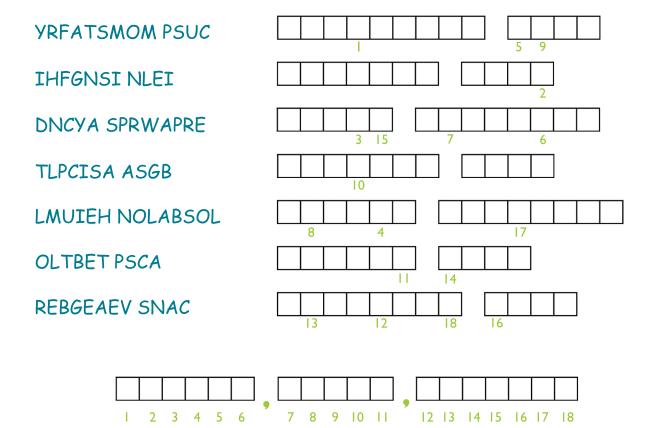

**Storm Drain** – an inlet designed to remove excess water from paved areas such as streets or parking lots

**Watershed** – an area of land from which surface water converges into a single water body such as a river, lake or estuary

# Marine Debris Scramble

## Instructions:

Unscramble each of the clue words. To find out the hidden message, copy the letters in the numbered cells to the squares below with the same number.

PLASTIC BAGS
BOTTLE CAPS
FISHING LINE
BEVERAGE CANS
STYROFOAM CUPS
CANDY WRAPPERS
HELIUM BALLOONS

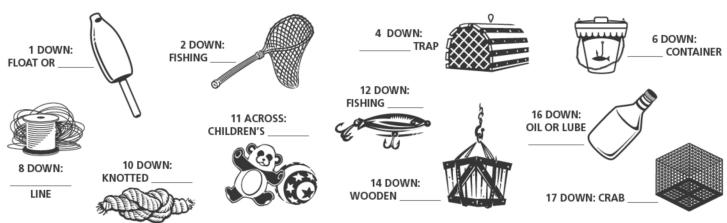

(Answers on page 8)

# es of Marine Debris

#### MARINE DEBRIS COMES **FROM MANY SOURCES**

#### ACROSS:

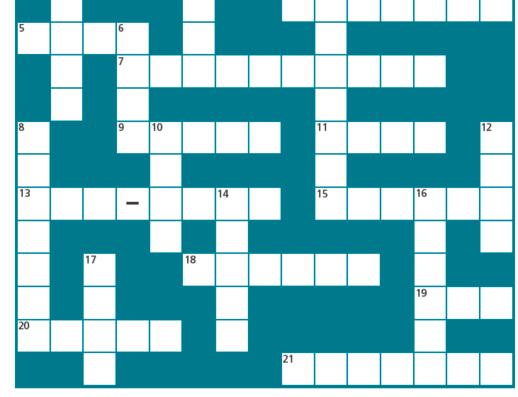

These litter items are generated by people on land such as beachgoers, picnickers, and those who improperly dump their trash.

#### DOWN:

These litter items are generated by people at sea such as boaters, fishermen, and passengers on cargo or cruise ships.

#### **PARENTS CAN HELP!**

**Unlock the Secret Message and Discover How You Can Become a Drain Brain!** 

Have you ever wondered what those holes are at the edge of the sidewalk? They're called storm drains and they carry rain water off the street and into streams and rivers.

Soda bottles, paper cups, candy wrappers, cigarette butts and all of the trash in the street gets carried into storm drains with the rain water until it finally reaches the ocean and becomes debris.

Unlock the secret message by using the chart below to replace the shapes with the letters they match up with.

## Make Your Own Recycled Bird Feeder

"Make a bird feeder From a big water jug Or find a new home For a slug in a mug." ~The Flying Debris

#### **MATERIALS:**

- Clean plastic soda bottle with cap
- Craft knife
- Small eye screw
- Twine for hanging

- Permanent marker
- 2 wooden spoons
- Bird seed

#### **INSTRUCTIONS:**

- Draw a  $\frac{1}{2}$  inch asterisk \* on the side of your plastic bottle, about 4 inches from the bottom. Rotate the bottle 90 degrees and draw another asterisk about 2 inches from the bottom. Now draw a 1-inch wide circle opposite each asterisk.
- 2. Have a parent slit the asterisk lines and cut out the circles using a craft knife. Insert a wooden spoon (handle first) through each hole and then through the opposite asterisk.
- 3. Remove the bottle cap and have a parent twist a small eye screw into the top of it for hanging.
- 4. Fill your bottle with bird seed, replace cap, and use twine to hang it from a tree branch.
