

GEORGIA AQUACULTURE CONFERENCE

APRIL 18, 2025 | ATHENS, GA

DRIVING INNOVATION, SUSTAINABILITY, AND GROWTH IN GEORGIA'S AQUACULTURE INDUSTRY

SPONSORSHIP OPPORTUNITIES

The Georgia Aquaculture Conference brings together industry leaders, researchers, and stakeholders to discuss advancements and opportunities in sustainable aquaculture across the state. Organized by UGA Marine Extension and Georgia Sea Grant, the College of Agricultural and Environmental Sciences, the Warnell School of Forestry & Natural Resources, the event provides a platform to share best practices, foster innovation, and build connections that support growth in Georgia's aquaculture industry.

The rising U.S. demand for seafood, fueled by population growth and health-conscious dietary trends, underscores the need for investing in sustainable aquaculture. Georgia is well-positioned to lead this effort with its strong agricultural industry, transportation networks, and natural resources. By investing in sustainable aquaculture, Georgia can help bridge the supply-demand gap, reduce reliance on imports, and support environmental sustainability.

Your sponsorship will help foster connections and the delivery of top-tier industry knowledge, supporting everything from speaker engagements to networking opportunities and educational materials. Join us in advancing Georgia's aquaculture future.
